## ARRESTS U. S. WORKERS FOR SELLING METALS

Two Employees of Geodetic Survey  
Taken Into Custody at Junk Shop.

Arrested in an alleged attempt to dis-  
pose of brass, bronze and copper parts of  
scientific instruments said to have been  
taken from the United States govern-  
ment, two employees of the Geodetic Sur-  
vey were arrested yesterday by Detec-  
tives Jones, of Central Office, and held  
for the grand jury in the sum of \$1,000  
bail.

The two men gave the names of Wil-  
liam French Wood, a boilermaker, 39 years  
old, of 711 H street southwest, and Frank  
Richard, a boilermaker, 37, of 715  
Fifth street northwest. They had been in  
the employ of the survey at Delaware  
avenue and B streets for some while, and  
Ernest W. Fisher, of the survey, is the  
complainant. According to the police,  
the stolen property included a number of  
brass plates to be used in marking the  
United States-Canadian boundary line.

The attention of officials was first called  
to the larceny through Detective  
Jones, who learned that two white men  
had frequently visited the junk shop at  
noon times, offering the metal for sale  
in small quantities. He investigated the  
character of the property and waited for  
the two men to appear Tuesday. When  
they came in offering more of the prop-  
erty for sale he placed them under ar-  
rest. Altogether the men are said to  
have disposed of 100 pounds of metal.  
Authorities had not learned last night  
whether any expensive scientific instru-  
ments had been "scrapped" to secure the  
metal, or whether it had been taken from  
junk. It was learned that most of the  
property was valuable.

## AVIATOR MAY BECOME MAN WITHOUT COUNTRY

Native-Born American Who Fought for  
Britain Stranded in U. S.

Theodore Marburg, Jr., son of the for-  
mer American Minister to Belgium, ap-  
pears to be a man without a country.  
He has been refused passports by the  
State Department, and cannot obtain  
them from the British authorities in this  
country.

Marburg lost a leg while serving in the  
British aviation corps, and then came to  
the United States. He desires now to  
return to England, where he plans to  
serve as an instructor in the British  
aviation service. The State Department  
is waiting for his answer to its question,  
whether he took the British oath of al-  
legiance. If he did, he automatically lost  
his American citizenship.

President Wilson has issued an execu-  
tive order requiring Americans leaving  
this country to secure passports, and  
shipping lines refuse to accept passen-  
gers without passports.

## NEW YORKERS TO CHEER THE PRESIDENT TODAY

New York, Nov. 1.—The popular recep-  
tion to President Wilson at Madison  
Square Garden tomorrow evening is ex-  
pected to be the greatest demonstration

ents, Progressives and Republicans will  
turn out in the great street demonstra-  
tion in the evening.

The seating capacity of the mammoth  
auditorium at the Garden has been in-  
creased by 3,000, accommodations being  
provided for 14,000 persons. Only a few  
hundred seats have been reserved at the  
Garden for the committee and organiza-  
tion leaders. There will be at least five  
overflow meetings, and an effort is being  
made to persuade the President to make  
a five-minute speech at each of these  
meetings.

The President will arrive in the city at  
9 o'clock.

## SOUTHWEST RAILROADS BOOST FREIGHT RATES

An attempt on the part of Southwestern  
railroads to propose general increases in  
freight rates is heralded by the failure  
of the Interstate Commerce Commission  
to suspend new rate increases on many  
commodities from Shreveport, Iowa, to  
Texas points, according to railroad and  
shippers' representatives practicing be-  
fore the commission.

Immediately after Tuesday midnight  
increased freight rates became effective  
on the traffic westbound from Shreve-

port with the exception of the rates on  
lignite, cattle, wood, and tanbark.  
Some months ago the commission or-  
dered the railroads to remove a discrimina-  
tion against Shreveport which existed  
because the Texas Railroad Commission  
had decreed extremely low rates between  
points in the State of Texas.

## Young Robber Killed

shot by Suchard, who fired at their vic-  
tim when he attempted to resist, Suchard  
says.
